SUMMARY

Motivated Computer Science undergraduate currently pursuing a Bachelor of Science in Information Technology (6th Semester) at Air University Islamabad. Proficient in full stack web development using React, Node.js, and .NET Blazor, with practical project experience spanning e-commerce, education domains. Gained professional work experience in client management and quality control for an international company, demonstrating reliability, communication skills, and attention to detail. Eager to apply technical knowledge and a strong learning aptitude in a software engineering internship environment.

EXPERIENCE

Client Manager & Quality Controller

2024 — Present

Foreign Company (Remote) | Freelance

- Managed end-to-end client communication for an international company, serving as the primary point of contact for onboarding, queries, and issue resolution across multiple accounts.
- Reviewed and evaluated large volumes of digital photo assets as a quality controller, enforcing strict brand and client standards before final delivery.

EDUCATION

BS Information Technology (BSIT) — Air University, Islamabad

6th Semester | Expected Graduation: 2027

Associate Degree in Computer Science (ADCS) — Air University, Islamabad

Graduated: 2025

PROJECTS

CI/CD Pipeline — Portfolio Deployment

GitHub Actions | AWS S3 | DevOps | [Live Portfolio](#)

- Automated deployment pipeline using GitHub Actions, reducing manual effort to zero for a static portfolio site hosted on AWS S3.

Book Sale & Purchase System

.NET Blazor | SQL Server | [GitHub Link](#)

- Built a full-stack e-commerce platform for second-hand book trading with user authentication and inventory management with SQL Server as the backend database.

Online Quran Academy

Full Stack Web Application | [GitHub Link](#)

- Built a Flutter mobile application for an online Quran teaching academy with role-based access for teachers and students.

Restaurant Management System

University Project

Flutter | Firebase Firestore | [GitHub Link](#)

- Designed a cross-platform POS and order management application with real-time Firebase synchronization for live order tracking.
